Ikea desk hack L shape

I can't believe all the amazing comments and feedback I've received in my office! In fact, it's been more than a year since I revealed my office makeover and I still have weekly emails and comments asking how I created my L-shaped desk setup. So today I'm sharing some additional behind-the-scenes photos of my desk + you'll find the full shopping list below! The shopping list for setting up the L Linmonn Table Top – High Gloss White desk (47 14x23 5/8) Alex Drawer Unit in White (this is in place of the last 2 legs) If you wanted more space in the drawer, you could make 2 Alex units and only 4 legs. Because of my big pink chair, it would have been crowded for me. Also... I have the Lack coffee table on the side of my desk next to me for my printer. And if you could have an amazing and functional desk space in your home that allows you to complete all your admin tasks in comfort and style and an incredible space for your kids to get their homework done... all without spending a fortune? If you want more Ikea hacks and BUDGET DIY projects, be sure to follow me on Pinterest that's where I'll share all the best new Ikea hacks in 2020! If you're always thinking about ways to increase your productivity, you'll love rethinking your easiest productivity hub, your desk, every now and then. The desktop setup may have worked, but over time, your needs and style may change. And the desk you need once serves so well it might need an update. I've been working with a single desk for the farthest moment, but now I'm seriously considering an L-shaped desk. To be a reason, recently (I know, late to the party) I discovered the joys of a second monitor. With a laptop and monitor, my desk space is tightening. The additional desk space will allow me to lay out all my notes and jotting and keep my main desk area exclusively for machines. The goal: division of space for greater concentration. Luckily, an L-shaped desk isn't hard to find or hack. Here are 6 ways to fit one to your home office, big or small. Make it clear, uh... Ikea's #1 BEKANTPop is from the box: the IKEA BEKANT L-shaped desk. It's compact, priced at \$249.00. It is also available in sit/stand version #2 BESTÅ BURS Via InstagramPlace two corner BESTÅ BURS desks, such as what SassAndSpice and voila did, instant expansion. Hack a super long L-shaped desk #3 LINNMONI desk hack LINNMON table tops are a good place to start when you want to put together a long, sprawling desk. Join all floors of the table together to get the training you need. The nice thing is that there is no intrusive leg to the right angle joint. Tutorial for the hack. The glossy LINNMON tables are stunning, when paired with dormant accents, as Go4ProPhotos' Leah demonstrates in her office makeover. Add additional storage#4 KALLAX shelvingAs another application on the LINNMON desk. This is paired with KALLAX instead to create additional storage space on the short side of the desk. If you have a lot of things, it will work beautifully. Use kitchen counter tops to run HAMMARP bench blocks at work #5 Butcher blocks are perfect as desk tops. They are solid, durable and look great. Cut them to the fit length and assemble them. The best thing? Cascading joints.#6 Alexi counter-ceiling unitsKitchen can be combined with IKEA chests of drawers such as HELMER or ALEX as desk legs with storage.
